Shop Drawing Submittal Procedure

1. The contractor shall submit an electronic set of standard shop drawings or manufacturer's catalogs with the model number or type of the item designated. The submittal shall bear the approval of the Underground Utility Contractor and the EOR.
2. An electronic set of complete detailed shop drawings for all sanitary manholes, wet wells, other castings and pumps shall be submitted and shall bear the stamped approval of the Underground Utility Contractor and the EOR on each sheet. A complete set of the lift station electrical shop drawings is also required.
3. The end result of the above procedure is a complete submittal to the "District" of all materials and products to be used in the construction and installation of the underground potable water, wastewater and irrigation quality water system. Further, all submittals shall be made in One (1) package (list of items, shop drawings, catalogs and other required drawings).

Please note: that submittal must be accompanied by a cover letter of transmittal stating the package contents.
