² In the event that a new single-family Customer requests a meter up-sizing to support a fire sprinkler system for a residence, then the Customer will be required to pay for the cost of the meter to be installed. The Customer will be required to pay Base Facility Charges based on the size of meter installed. The Customer must also install a reduced pressure backflow prevention device on the fire sprinkler line. The backflow prevention device shall be registered with the District. The Customer will be required to perform annual inspections of the backflow prevention device and provide certified inspection reports to the utility.

If a Customer has only a single meter that also provides Private Fire Protection Service, then potable water charges apply, subject to the meter size as detailed in the prior paragraph. If a Customer has a separate meter for the Private Fire Protection Service, Customer will pay according to both meters, i.e. a monthly potable water facility charge and a monthly Private Fire Protection Service facility charge.

³ Customers shall not have private irrigation wells nor utilize lake/pond water for irrigation purposes.

E. NOTES

Automatic Cost Escalation. In the absence of Board action, the District's rates, fees and charges shall be automatically increased without further action three percent (3%) per year. Upon application of this automatic cost escalation provision, the District Manager shall submit to the District Board of Supervisors a report detailing the amount of the escalation and the new rates as revised. The Rate Schedule shall be adjusted pursuant to this section as required.

Utility Cost Pass-Through. The District's rates, fees and charges shall be automatically increased without further action of the Board based upon the implementation of a rate increase to the District Utility System by any utility which provides service to the District, or upon implementation or increase of any taxes levied by a governmental authority against the District, or upon an increase of costs incurred for water quality, wastewater or irrigation quality water quality testing required by the Department of Environmental Protection, or other unfunded mandates imposed by a controlling governmental agency. Upon application of this cost pass-through provision, the District Manager shall submit to the Board of Supervisors a report detailing the amount of the escalation and the new rates as revised. The Rate Schedule shall be adjusted pursuant to this section as required.

Water Use Restriction Surcharge. Commodity charges may be adjusted from time to time temporarily by up to twenty five percent (25%) to reflect a water use restriction surcharge rate adjustment that may be implemented in response to and for the duration of general water use restrictions imposed by the South Florida Water Management District (SFWMD).

Prorations. Base Facility Charges will be pro-rated for any partial month of service.

All returned checks will be subject to a service fee, as per Section 832.07, Florida Statutes, equal to the greater of five percent (5%) of the face amount of the returned check, or \$25.00 if the face value is less than \$50.00; \$30.00 if the face value is greater than \$50.00, but less than \$300.00; or \$40.00 if the face value is greater than \$300.00.
